

## **A big “Thank You” to all our Volunteers for 2005!**

Ultra Races have traditionally been concerted trail running community efforts, rather than big commercial events, and we have continued in that tradition of being 100% volunteer-managed.

We would like to extend our gratitude towards the many volunteers who devoted their entire Saturday, and then some, to help provide a safe and successful 2005 PCT50/50.

Our race could never take place without the dedication and reliability of our volunteers, those who just came out to help, and those who helped before and after the race.
